There were approximately 35 district residents and staff members present.

Mr. Bettan called the meeting to order at 7:50 p.m. and welcomed everyone.

The Pledge of Allegiance was recited.

Board Announcements

Mr. Bettan welcomed everyone back, with a special thanks to the Bond Committee Members who are here tonight.

Mrs. Pierno wanted to acknowledge high school junior, Brooke Sender who ran a blood drive this summer and raised 31 pints of blood, saving many lives. It's not surprising that her mother runs the PTA blood drive.

Mrs. Schulman stated that she had an opportunity to tour the Summer Special Ed. Program and it was a pleasure to see the kids working productively. She said it is a great program.

Mrs. Schulman stated that she had the opportunity to attend a conference in Albany this July. She said that it was a great experience meeting with the Commissioner and other Board Members from around the State. They discussed many topics, which included testing.

Superintendent's Announcements

Dr. Lewis said that she was happy to be back after her surgery. She thanked everyone for all of their support, with a special mention to the PTA for the amazing gift basket they brought to her, she commented how thoughtful all of the gifts were. She thanked her Assistant Superintendents for all of their hard work and for stepping up during her absence.

Dr. Lewis feels that it will be a spectacular year and is looking forward to "Building Great Futures Together".

Dr. Lewis spoke of the test score and stated that they will have a full report in September. She added that she is very proud to be the Superintendent for POB.

Retirees

Dr. Lewis had the honor of speaking of the accomplishments of Dr. Judith Chen. She is happy to state that she will still be working in the district on a part-time basis. Ms. Susan Bertram spoke of the time and dedication Dr. Chen has always expended for the students. She stated how very lucky POB is to have her.

Ms. Gierasch had the opportunity to speak, on behalf of Ms. Suzanne Grey, in honoring Maria Tarnok.

Bond Presentation

Mr. Ruf gave an overview on the Bond timeline.

Mr. Roger Smith of BBS Architects, gave an overview on where the committee was heading. He indicated that as a group they were evaluating all of the buildings. He stated to the Board that although it feels like they are moving rather quickly with the timeline, it is, the preferable way to proceed so that the focus is not lost.

Discussion:

Mrs. Pierno thanked Mr. Smith and the community members. She asked what is anticipated in regard to air conditioning. She inquired as to which areas would be considered. She also questioned the tennis courts and the science labs in the middle schools. Another issue Mrs. Pierno was concerned with was security and ADA compliance.

Mr. Smith stated that there have been discussions concerning air conditioning and they will be looking for direction from the committee and the Board. He added that they are looking to add tennis courts at Mattlin MS and they would like to increase those at the high school from four to six courts.

Mrs. Schulman asked if they were considering the whole building or individual areas for air conditioning.

Mr. Smith stated that they are looking at large spaces and that everyone's opinion of where there should be air conditioned is different. He said that they will also have to look at the cost of improving the electrical service.

Mrs. Rothman stated that the tour of the buildings was great. She said that there is always something to learn. She asked if the committee has had a chance to review the Technology Audit Report and, if moving forward, will we be able to support increasing the functionality of technology.

Mr. Ruf said that they had an independent expert review the report, but they have not shared it with the community yet. He said that they will e-mail it out before the next meeting.

Mrs. Rothman also said that it was good to see the new ceiling lights and how they were able to get a sense of what the rest of the ceilings will look like. She also asked about rebates from LIPA.

Mr. Smith said that they will have the engineers look into it, and indicated that, yes, there are rebates. They will also be updating the science labs.

Mr. Smith stated that they will also be evaluating the issue of security. There is another group looking at cameras, lockdown vestibules, and changes to classroom hardware, to name a few. Everything will be ADA compliant and as green and energy conserving as possible.

Mrs. Lieberman asked if they were evaluating the elevators and lifts. She also asked about door replacements in regard to locking them from the inside in case of a lockdown.

Mr. Smith said yes they are. He also stated that they won't need to replace all of the doors.

Mrs. Bernstein asked if they were looking at outdoor lighting in regard to security.

Mr. Smith stated that they will be looking at outdoor lighting.

Mrs. Bernstein stated that there should be equity between all the buildings.

Mr. Bettan asked for an explanation of the types of windows being replaced in as much that this item will be a huge part of the updates. He also questioned the anchors behind the walls.

Mr. Smith gave an overview.

Mrs. Rothman asked about the Art room at Mattlin and the venting system. She also asked about building usage and whether we might be able to rearrange the rooms.

Mrs. Pierno asked about the stage area. She stated that the report only addressed lighting.

Mr. Smith said that they will be looking into all of the Board's concerns.

Mr. Bettan invited the Bond Committee Members to speak.

Mr. Jacque Wolfner spoke of the committee and how it's great to hear the many different point of views. He stated that they are, in the gathering information stage, and one of the main struggles includes how much capital they will need.

Mr. Mark Hammaren applauded the Board of Education on allowing the community to be involved in the Bond process; he feels that transparency is key. He stated that Mr. Ruf is doing a great job on moving 15-20 ideas forward. He had some concerns, as a tax payer, in regard to trying to stay on top of the repairs and not having to do another bond in the future.

Mr. Michael Fener thanked the Board for allowing the community to be involved. He stated that Mr. Ward and the custodial staff are doing the best that they can in keeping up with buildings that are a half century old. He feels that it is forward thinking in trying to do something like this bond, and every once in a while, it needs to be done.

Public Participation

Ms. Ben-Dror addressed the Board with issues of her daughter’s placement.

Ms. Aloe stated that the Boards policy does not allow discussions on individual student matters.

Mr. Jacque Wolfner was happy to see Dr. Lewis on the road to recovery. He wished the Board of Education and the Administration all the best for the upcoming school year. He asked for a full discussion on several agenda items.
