

## College Level Courses

Plainview-Old Bethpage John F. Kennedy High School provides students an opportunity to take college courses and earn college credits through three (3) universities: Adelphi University, Long Island University CW Post and Syracuse University. All courses offered by these institutions carry credit which may be applicable toward a degree at other colleges and universities. Applications with registration instructions are distributed by the course instructors in September. Each institution has specific registration procedures that must be followed to ensure proper registration and receipt of course credit. Please note that the tuition fees listed in the following chart are for the current school year and are subject to increase yearly. In the event that a student chooses to withdraw from a course, they must follow the deadlines and procedures established by the institution. The awarding of college credit is solely determined by the college or university attended by the student. This decision can be based on a variety of factors including but not limited to the student's course grade and the student's intended major. Credits may be awarded as elective credits, credits within a particular department, or may waive prerequisite requirements for higher level courses.

The following chart outlines the College Level courses currently being offered, with 2016-2017 costs. College Level course grades carry a weight of 5% in a student's cumulative grade point average.
